This was Prof. Donald Huisingh’s first visit to CAGS. He was invited by and hosted by Prof. Roger Burritt.

A very busy, productive and stimulating, 13-day Programme was developed and coordinated by Prof. Roger Burritt and Ms. Joanne Kassoudakis.

The main objectives for Prof. Huisingh’s visit included:

a. Work with Prof. Roger Burritt and Prof. Stefan Schaltegger on the finalization of the special issue of the Journal of Cleaner Production titled, “Climate Change Accounting and Sustainability Management” which was guest edited by Stefan Schaltegger (Centre for Sustainability Management, Leuphana University Lüneburg) and Maria Csutora (Corvinus University Budapest);

b. Plan and deliver a two block, “Writing, Submitting, Revising and Publishing First Quality Scientific Manuscripts,” on June 21 and June 28 from 0900 to 1300. (A total of approximately 45 attendees participated in the two-day writing workshop.)

c. Plan the development of a new Call for Papers (CfPs) for the Journal of Cleaner Production. This new CfPs, titled, “The Sustainability agenda of the Minerals and Energy Supply and Demand Network: An Integrative Analysis of Ecological, Ethical, Economic and Technological Dimensions.” By Sumit Lodhia, Chris Moran, Nadja Knuz and Donald Huisingh; (The formal team leadership is held by Prof. Sumit Lodhia.)

d. Work with faculty, staff and graduate students on their research and writing projects. Many of the initial meetings stimulated follow-up meetings that led to plans for or progress on preparation of articles for publication in peer reviewed journals or for progress in planning research proposals or progress on Ph.D. research planning.

Individual meetings were held between Prof. Huisingh and the following person or persons during his 13-day visit at CAGS:
