

South Australian Health Omnibus Spring Survey Question (Sept – Dec 2012)

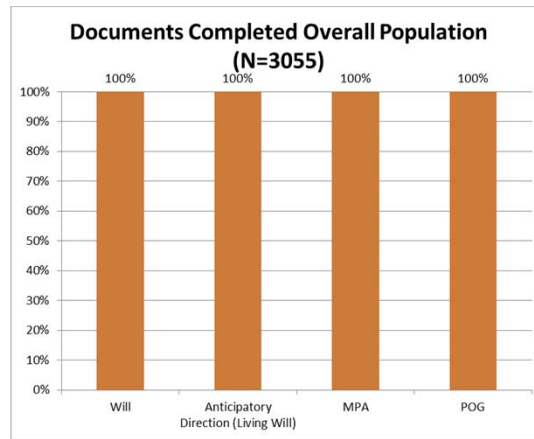

Have you completed any of the following forms for yourself? (multiple responses allowed)

- Power of Guardianship (for healthcare and welfare)
- Will (for after you have died)
- Medical Power of Attorney (for healthcare)
- “Living Will” (advance care plan, statement of choices, life values statement, organ donation card or other)
- None of the above
- Don’t know/Refused to Answer

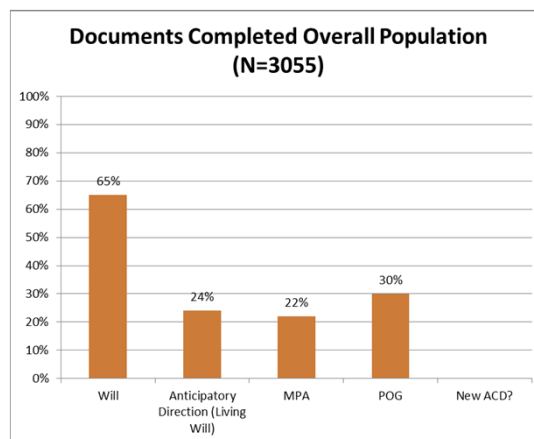

Results of the HOS question are presented as prevalence rates from a sample of 3055 participants in South Australia (Bradley, et al. 2013)

What would be good to see

What is realistic to achieve based on the evidence from the literature and other research studies thus far...

Advance Care Directives

- **Effectiveness** (Hickman (2005), Wilkinson (2007))
- **Uptake and completion rates**
(Fagerlin and Schneider (2004), The SUPPORT Investigators (1995))
- **Terminally ill and elderly (+65)**
(Bravo (2008), Davison and Simpson (2006))
- **Younger and chronically ill (+45)**
(Camhi (2009), Reuben (2009))
- **18+ and Competent**
(Cartwright (2004), Patient Self Determination Act (1990))
- **Substitute Decision-makers**
(Wendler and Rid (2011), Ruff (2011), and Salmond (2011))
