

Stage
1

May 18 - June 12

Teaching
(internal
enrolments)
& Research

- Lectures and tutorials continue online for all courses
- Workshops and practical classes delivered on campus with social distancing protocols in place
- Revision sessions during SWOT-VAC may be delivered on campus, where practicable, with social distancing protocols in place
- Staged return to student placements with WHS controls
- Research field work SA wide via permission of Dean/Director Research
- Research that cannot be done remotely may be resumed on campus via permission of Dean/Director Research using approved preparedness framework
- Research requiring human contact via permission of Dean/Director Research using approved preparedness framework
- Maintain social distancing in all areas of the University
- Building access predominately via swipe card
- Free carparking at all campuses
- Retail food outlets progressively open for limited hours and provide take away food – outdoor dining limited to 10 person max.
- Staff required to 'Check-In' via SafeZone
- Enhanced cleaning in place – high frequency touch points, additional hand wash and sanitiser stations provided
- Supervisors establish staffing plans in line with return to campus principles – including space and work task assessment to ensure required social distancing
- Majority of staff work from home with supervisor support unless their role means they need to be on campus
- Maintain social distancing protocols in all areas of the University
- Social distancing strictly observed in all offices/meeting rooms and hotdesking should be avoided
- Non-essential events deferred or cancelled
- Consider staggering working hours to minimise the need for travelling on public transport in peak hours
- Work related regional travel can be considered

Stage
2

June 15 - July 24
