

Film Technology

Clinical needs

- Poor bioavailability
- Patient acceptability and compliance
- Drug targeting

Benefits

- Better patient compliances
- Faster onset of action
- Unit dosage form
- Scalable
- Taken with no or little water

Our approach

- Surface casting
- 3D printing
- Particle engineering
- Solid dispersion
- Micro and nano emulsion

Potential areas

- Cancer
- Reproductive health
- Neuro-disorders
- Micronutrients
- Others

Commercial outcome

Novel contraceptive film
CBD film
